IMPORTANT INFORMATION

The siting and design of Single Dwellings and associated outbuildings is regulated by the Building Regulations. Some housing estates in Hume City also have siting and design Rules or Building Envelopes that are unique to the allotments in the particular estate. Where this is the case the Building Regulations may be overridden by the unique siting and design rules or building envelopes.

If in any particular case there is a conflict between the regulations and unique siting and design rules or building envelopes advice should be sought from Hume City Council Building Control Services department, telephone 9205 2200. Copies of the Building Act 1993 and the Building Regulations 2018 can be accessed from the web site of the Victorian Government www.legislation.vic.gov.au

Council consent is required if a person wishes to site or design a Single Dwelling or any associated outbuilding in a manner that does not comply with the regulations. To apply for Council consent an application for Council Report & Consent must be lodged with the Council. Occasionally an application for a Planning Permit or approval will be necessary instead of an application for Council Council Report & Consent if this is a requirement of Planning legislation.

Council requires the applicant to supply adjoining owners comments in relation to an application at the time of lodgement. See Affected Adjoining Owners Consent Form.

This information is collected for the purposes of complying with the requirements of the Building Act 1993. Council will not disclose this information unless it is permitted to do so in accordance with the Act(s), or per the provisions of Council's Information Privacy and Health Records Policy. Failing to provide sufficient or necessary information may limit Council's ability to provide related service(s).

Note: All Owners of affect	ted adjoining land must sign the relev	ant narts	of this document				

This information is collected for the purposes of complying with the requirements of the Building Act 1993. Council will not disclose this information unless it is permitted to do so in accordance with the Act(s), or per the provisions of Council's Information Privacy and Health Records Policy. Failing to provide sufficient or necessary information may limit Council's ability to provide related service(s).

REPORT & CONSENT APPLICATION CHECKLIST

	Completed Application Form.
	Prescribed Fee (to be paid when making application).
	Current, clear copy of the Certificate of Title (maximum 90 days old) including Plan of Subdivision.
	Written approval and endorsed plan/s from the Relevant Building Surveyor advising they are satisfied with the proposed precautions to be taken out for Protection of the Public in accordance with Regulation 116.
	A written statement indicating the scope of works and methodology being undertaken to the building/land and the duration of protection works in days/weeks/months.
	Submit scaled drawings of the proposed building works and construction/demolition procedures and methodology (minimum A3 size), as applicable.
	Two (2) copies of a metric scaled drawing in accordance with regulation R25 of the Building Regulation 2018, the matters to be shown on a site/allotment plan are:
•	The boundaries and dimensions of the allotment and the distance to the nearest intersecting street;
•	Street names, direction of traffic flow and north point;
•	Extent of proposed building works and location of protection works measures – showing remaining minimum clear pedestrian access width of 1.5m in CBD area;
•	Footpath/roadway width measured from the kerb and extent of occupation area required;
•	Temporary road/footpath crossings , including location of temporary kerb ramps to comply with AS1428 if pedestrians are directed to use other footpath;
•	Location of all street features (signs, poles, traffic lights, litter bins, bus & tram stops, telephone & letter boxes, etc), trees, fire hydrants, parking signs, site access, etc. and the clearance width to
	the hoarded area. Two (2) copies of metric scaled drawings, including elevations and sections of proposed public protection measures showing:
•	type, height and for solid hoarding include colour; (white or yellow only)
•	construction and fixing details and footing system of hoardings/barriers extending across the footpath, site and road reserve;
•	location and type of pedestrian signage, amber and night lights;
•	access and egress points to the site; (where applicable) scaffolding details including width and height specifying that it will be
	encapsulated with heavy duty shade cloth fabric.
Ш	Structural drawings and computations together with a Certificate of Compliance – Design from a registered Civil Engineer for the proposed gantry/walk-through scaffold . Specify maximum loading weight limits for gantries, impact loads caused by vehicles are to be considered (where applicable);
	Traffic management plan (TMP) including all relevant signage details with pictures to be prepared by a registered company or traffic engineer in compliance with the road Management Act 2004. TMP must be obtained when diverting pedestrians onto or across a road;
	Other authority approvals: VicRoads – Memorandum of Authorisation (MOA); Country fire Authority (CFA) when obstructing the access to fire services, Australia Post, Public Transport Victoria.
	IMPORTANT: Street/Footpath Occupation Permit Required
	The applicant is advised that before protection works/hoardings are erected over the road

2021 Application for Report & Consent - 010721 -300622.docx

application may be refused and you may have to re-apply.

reserve, a **Street/Footpath Occupation Permit** must first be obtained.

ALL BOXES SHOULD BE CHECKED. If all relevant documents are not submitted your
