

HANDS ON NEIGHBOURHOODS PART 2 INITIATIVE FACT SHEET

Many in our community are experiencing challenges, and a range of initiatives as part of the *Together 3047* project aims to reduce barriers to participation.

As part of the *Together 3047* project, the Hands on Neighbourhoods Part 2 initiative enables local residents to have a say on priorities for housing and development in their neighbourhood.

Why should I get involved?

Your involvement and ideas can help shape student architectural designs for housing and community facilities in Broadmeadows. Getting involved will enable you to:

- See new possibilities for your home and your community
- Take a 'hands on' role in the design process
- Share knowledge of your neighbourhood

How can I get involved?

Come along to any of the community sessions to meet the design team and share your views. The students will be building architectural models based on your feedback, so watch as the designs come to life!
