

HUME CITY COUNCIL TOGETHER 3047

SHAPING OUR NEIGHBOURHOODS PROJECT FACT SHEET

To overcome some of the disadvantage in the 3047 postcode area of Broadmeadows, Dallas and Jacana, an initiative called Together 3047 has been created.

This program will deliver a range of projects to promote opportunities for local employment and training, improve housing diversity and enhance our streets and public spaces.

One of these projects is Shaping Our Neighbourhoods.

What is Shaping Our Neighbourhoods?

Shaping Our Neighbourhoods is an urban design project aimed at creating a strong sense of community connectedness, belonging and liveability in the 3047 postcode.

What will it do?

As part of the Together 3047 initiative, Council is keen to improve the appearance and amenity of Dallas, Olsen Place and Broadmeadows Town Centre.

This project will engage the community in decision-making about their neighbourhoods, including ideas about improving amenity and appearance. It will also provide the community a chance to contribute to the development of a broader vision for their neighbourhoods including access to better housing choices and infrastructure improvements.

How will it do this?

Shaping Our Neighbourhoods will achieve these goals by:

- Holding pop-up community engagement events,
- Responding to community-led ideas for shaping the neighbourhoods of 3047 through revitalisation of its streets, public spaces and activity centres,
- Improving the streetscape and shopfronts in activity centres, and
- Building social networks and strengthening the sense of community.

How can I get involved?

We encourage the community to be actively involved and participate in the decision-making process. Attend a pop-up engagement 'Design Lab' session and share your ideas and vision for improving your neighbourhood:
