

# JACANA SHIMMY BICYCLE ROUTE

**Johnstone St -  
Western Ring Road Trail -**

## What is a shimmy bicycle route?

A shimmy bike route is a signposted route that makes its way through quiet back streets. In addition to signage, shimmy routes have bike symbols and arrows on the road surface that tell you which way to go.

The Jacana shimmy route connects the Broadmeadows Town Centre to the Moonee Ponds Creek Trail and Western Ring Road Trail by cruising through the quiet streets of Jacana.

## Tips for shimmy riding

- Ride a car door's width away from parked cars
- Use hand signals and eye contact to communicate with other road users
- You are legally required to use a hand signal if you are turning right or moving to the right
- Move to the centre of the lane as you approach single-lane roundabouts
- If you are uncomfortable with the on-road option you should get off your bike and use pedestrian crossings.

## JACANA SHIMMY BICYCLE ROUTE

### Johnstone St - Western Ring Road Trail ▾

Shimmy bike routes are signposted routes that follow the quiet back streets which are designated by signage and bike symbols on the road showing which way to go. The Jacana Shimmy runs between Broadmeadows and Glenroy through Jacana passing the Jacana Shopping Centre, Jacana School for Autism and Broadmeadows Health Service. It connects the Broadmeadows Town Centre to the Western Ring Road Trail and Moonee Ponds Creek Trail. By avoiding the busier main road of Pascoe Vale Road, you'll feel at ease riding along the southern side of Hume.
